

## Neighborhood Concerns - Who should I call?

Do you find the condition of our neighborhood unacceptable? A recent Nextdoor post showed how to make a difference. Here is an excerpt:

Call **911** when a person is

- a danger to self or others, is experiencing a medical or psychological emergency
- committing a crime (selling/doing illegal drugs, lewd behavior/nudity, theft etc)

Call **311** or **non emergency police number (415) 553-0123** to

- provide well-being checks for people not in imminent danger but who need help
- report tents/encampments, aggressive panhandling/behavior, people blocking sidewalks/entrances
- file a noise complaint or submit a public service request

Use the **311 app** and Twitter **@SF311** to

- reinforce 311 and police calls with helpful photos and messages
- report Syringes/drug paraphernalia, human waste, garbage/debris etc.

You can also contact your **supervisor** and the **mayor** with your concerns
